@CBSsomalila

Central Bank of Somalia

Foreword

It is my distinct honor to present the Fourth Issue of the Central Bank of Somalia (CBS) Statistical Bulletin. This publication is issued in accordance with the provisions of Articles 5(h), 44, and 55 of the Central Bank of Somalia Act, Law No. 130 of April 2012. Under this Act, the CBS is mandated to serve as an economic advisor to the Federal Government of Somalia (FGS), to inform the public and relevant stakeholders of its policies, and to contribute to the development of sound economic policymaking for the country.

In fulfilling its responsibilities, the Central Bank of Somalia is committed to the regular dissemination of data through this Statistical Bulletin, ensuring accessibility for all relevant stakeholders. This edition presents data spanning the years 2021 to 2024, covering key macroeconomic sectors: Monetary, Government Finance, Real and External Statistics. This Bulletin has been produced by the Statistics Division of the Research and Statistics Department under the Monetary, Financial, and Regulatory Policy Group of the Bank.

The Central Bank of Somalia would like to take this opportunity to thank FGS line ministries, departments, and agencies in providing the requisite data for the production of this Bulletin.

I hope all data stakeholders and end-users will find the content of this Bulletin useful and informative. CBS welcomes any feedback on this Bulletin or on any of its other publications.

Should you have any comments or reactions, please contact the Central Bank of Somalia.

Mr. Abdirahman Mohamed Abdullahi

Governor

Introductory Notes

1.0 Analytical Balance Sheet of the Monetary Survey

The banking system, from which the data presented in this publication is obtained, consists of the Central Bank of Somalia (CBS), thirteen domestic commercial banks, and one foreign bank branch. It is important to note that financial institutions such as Mobile Money Operators, Insurance Companies, and Microfinance Institutions are not covered in the data for this edition, however, data for these financial institutions will be released in subsequent releases.

Tables 1.1 and 1.2 present the monthly analytical balance sheets of the Central Bank of Somalia (CBS) and Other Depository Corporations (Commercial Banks).

The Depository Corporation Survey (DCS) data presented in Table 1.3 is derived by consolidating data from both the Central Bank (Table 1.1) and Commercial Banks (Table 1.2). These tables provide summary information that facilitates the preparation of comprehensive reports such as the DCS. The consolidation also supports effective cross-checking and validation of the summary reports.

2.0 Detailed Accounts of the Banking System

2.1 Assets of Central Bank of Somalia

Table 2.1 presents the monthly Assets of the Central Bank of Somalia.

2.1 Liabilities and Reserves of Central Bank of Somalia

Table 2.2 presents the monthly Liabilities and Reserves of the Central Bank of Somalia.

2.3 Consolidated Commercial Banks Balance Sheet

Table 2.3 encompasses aggregated monthly balance sheets of commercial banks. The aggregation/consolidation process involves summing the monthly balance sheet data of all commercial banks operating in Somalia.

Table 2.4 shows financing assets by instrument, derived from the consolidated data of commercial banks.

3.0 International Trade And Finance

3.1 Workers' Remittances

Table 3.1 presents Workers' Remittances, which are current transfers sent for family maintenance by migrants who are employed and reside in other economies. A resident is defined as a person who stays, or is expected to stay, in an economy for one year or more excluding students, patients, military personnel, diplomats assigned to overseas embassies, and staff of international organizations.

3.2 Somali Shilling Exchange Rates

Table 3.2 presents the Somali Shilling (SOS) exchange rates against the US Dollar (USD), showing three key indicators: the Buying Rate, the Selling Rate, and the Mid-Rate. The Buying Rate reflects the rate at which US Dollars are purchased using Somali Shillings, while the Selling Rate represents the rate at which US Dollars are sold in exchange for Somali Shillings. The Mid-Rate is the average of the buying and selling rates and serves as a benchmark or indicative rate. These rates illustrate the behavior of the Somali Shilling in the foreign exchange market, indicating general trends in currency valuation, market stability, and monetary conditions over time.

3.3 Balance Of Payments

The Balance of Payments Statement (Table 3.3) is obtained from various sources including administrative data from the Central Bank of Somalia (CBS), Ministry of Finance (MoF) and the Somali National Bureau of Statistics (SNBS) and surveys done by the bank. The statement is in line with the International Monetary Fund's Balance of Payments Manual, Sixth Edition (BPM6). The reserve assets section reports changes that have occurred in reserve assets within the reference period.

3.4 Foreign Trade Summary

The foreign trade summary provides monthly total imports (CIF), total exports (FOB), and trade balance.

3.5 Major Imported Commodities By Value

Table 3.5 presents the monthly value of major imported commodities, classified by product categories.

3.6 Cements Imported Through Mogadishu Port

Table 3.6 presents the monthly volume and value of cement imported through Mogadishu Port.

3.7 Imported Oil in Mogadishu Port

Table 3.7 presents data on the volume and value of oil imports through Mogadishu Port, categorized by type (Petrol, Jet A1, Diesel, LPG Gas).

3.8 Major Exported Goods by Value and Volume

Table 3.8.1 presents monthly data on livestock exports, reported in terms of quantity (number of heads) and corresponding export value in U.S. Dollars.

Table 3.8.2 shows monthly export data for animal skin, and fresh meat, reported in terms of volume in pieces and tons respectively and corresponding export value in U.S. Dollars.

Table 3.8.3 presents the export of selected agricultural commodities namely sesame seed, sesame oil, and dry lemon reported in terms of volume and value in U.S. Dollars.

3.9 Top Trade Partners

Table 3.9 lists Somalia's main trade partners by export destinations and import sources. It shows where Somalia sells its key products and where it imports most goods from, offering a snapshot of the country's major trade relationships and its external economic engagement.

4.0 Public Finance

4.1 Government Revenue, Grants and Expenditure

Government revenue is classified as Tax or Non-Tax. Tax Revenue comprises Import Duty, Excise Duty, Income Tax (including PAYE) and Value Added Tax (VAT). Non-Tax Revenue comprises Investment Income, Appropriations in Aid (AIA) and Other Levies relating to Traffic, Land, Airport, Licenses, Fines, and Forfeitures. Grants are Gift Funds received by the Government from other governments or international organizations.

Government expenditure is classified into two, namely, Recurrent Expenditure and Development Expenditure (Capital Expenditure). Recurrent Expenditure refers to expenditures incurred persistently (e.g., monthly). It consists of Domestic and Foreign Payments, Wages and Salaries, Pensions and Payments for Maintenance and Operations. Development Expenditure refers to the expenditure incurred on projects including relevant salaries and wages.

5.0 General Economic Indicators

5.1 Gross Domestic Product (GDP): Current and Constant Prices

National Accounts Data are compiled by the Somali National Bureau of Statistics (SNBS). Annual GDP data are extracted from surveys conducted by SNBS and other official data producing agencies. The main data source for compiling the 2024 National Accounts was the 2022 Somalia Integrated Household Budget Survey, and administrative data received from the institutions.

5.2 Consumer Price Index

Data on Consumer Price Indices (CPIs) are collected by the SNBS from 11 retail outlets in Somalia, 4 of which are in Mogadishu and 7 in other areas, in the first and third week of every month. In accordance with the findings of the Somalia High Frequency Survey (SHFS) conducted in 2016, the CPI basket was split into 12 categories of goods and services. Based on the findings of the Somalia Integrated Household Budget Survey (SIHBS) conducted in 2022, it is expected that by the end of 2024, the CPI basket will be classified into 13 categories in conformity with the 2018 Classification of Individual Consumption by Purpose (COICOP), and re-weighted to reflect the change in consumption patterns. The detailed methodology for computing CPI at the elementary and higher levels is contained in the SNBS Consumer Price Index.

5.3 Cereal Prices for Some Selected Regions

Tables 5.3.1 to 5.3.5 present monthly retail prices of selected cereal and staple food items across five key regions in Somalia: Benadir, Middle Shabelle, Bay, Hiran, and Lower Juba. The food commodities covered include Cowpeas (1Kg), Local Sesame Oil (1L), Red Sorghum (1Kg and 50Kg), and White Maize (1Kg and 50Kg).

6.0 Revision Policy

The provisional figures are revised in subsequent editions of the Bank's Statistical Bulletin.
